ABOUT ME

Graduated in Information Systems, with strong interest and hands-on experience in Product Management, Project Management, and Data Science. Skilled in Agile & Scrum framework, product discovery, product lifecycle management, stakeholder communication, data analysis, and data visualization. Experienced in applying design thinking, business analysis, and financial modeling to drive product growth and project success. Passionate about transforming data-driven insights into actionable strategies that improve decision-making, product value, and user experience.
